

Pre-Event Medical Screening Checklist

(Bring this completed form with you to camp each day.)

This checklist is to assist in identifying potentially communicable diseases before event participation.

The intent of this checklist is to review with each youth and adult participant their current health status, both before departure and upon arrival at the event. Anyone entering a camp or event — including visitors, vendors, etc. — should be screened using this checklist.

Have you been in contact with anyone who has COVID-19 or is otherwise sick in the last 14 days?
Have you or anyone you have been in close contact with traveled on a cruise ship, internationally, or to an area with a known communicable disease outbreak in the last 14 days?

If the answer is “yes” to either of these questions, and the participant has not been vaccinated or have not received a negative test, the participant must stay home.

Are you in a higher-risk category as defined by the CDC guidelines?

If the answer is “yes” to this question, it is recommended that you stay home. Should you choose to participate, you must follow all CDC guidelines for mitigating infection and then proceed to the symptom decision tree below.

If the above answers are “no,” proceed to this symptom decision tree.

Shortness of breath
New or worsening dry cough
Fever of 100.4° or greater
Flu-like symptoms
Vomiting
Diarrhea

NONE

YES to any ONE symptom

Cough
Unexplained extreme fatigue or muscle aches
Rash
Sore throat
Open sore

YES to any TWO or more symptoms

THE PARTICIPANT MUST STAY HOME
These symptoms are associated with communicable diseases
and the participant **MUST** stay home until medically cleared by their health care provider.

Camper's Name: _____
Parent's Name: _____
